**DETAILED ACTION**  
**Allowable Subject Matter**

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for the allowance:
3. With respect to independent claims 1 and 7, prior art fails to disclose or make obvious, in combination with other recited features of the claims' limitations, apparatus or method of irradiating a layer including: directing and focusing a radiation beam to a spot on the layer by means of at least one optical element; causing relative movement of the layer relative to at least one optical element so that, successively, different portions of the layer are irradiated and an interspace between a surface of the at least one optical element nearest to the layer is maintained; and maintaining at least a portion of the interspace through which the spot is irradiated on the layer filled with a liquid supplied via a supply conduit; characterized by directing gas to the layer; and removing supplied liquid from the layer in the vicinity of a flow of the gas.

Claims 2-6 and 8-10 are allowed by virtue of their dependence on independent claims 1 and 7.

**Conclusion**

4. Lyone atl. disclose an immersion lithographic process using a conforming immersion medium positioned between a photo resist layer and the lens.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
